PERSONAL PROJECTS

• HOSPITAL MANAGEMENT SYSTEM USING JAVA AND MYSQL

The software to be developed deals with creating a Hospital Management system which simply automate the hospital operations such as generating bills, managing appointments b/w patients & doctors.. Admin have the authority to control and modify the database etc.

• Food Panda, Udemy, OLX Websites Clone & Quiz Application

During learning web development, I made these two clones with HTML & CSS and little bit JS as well. They are almost same as their official websites are. While in quiz, there are ten questions related to web development and grading system as well.

• OLX Clone with Real-Time Chat App

In this clone, I just made olx landing page clone in which a buyer and seller can sign-in & sign-up and talk with each other on clickable product Ad and alot more etc.
